

HOLBEIN New Products

PRO RESABLE® 3600/2600

We are launching the “PRO RESABLE”, a hybrid paintbrush that combines a new synthetic fiber, designed to replicate natural weasel hair, with the Holbein original synthetic fiber RESABLE. This brush offers suppleness and paint-holding capacity similar to weasel hair, enhanced with the elasticity and tip cohesiveness of RESABLE.

The “PARA RESABLE” series, which combined weasel hair and RESABLE hair, has been discontinued due to the difficulty in obtaining weasel hair. As a successor, we have introduced the “PRO RESABLE” paintbrush. By combining a new synthetic fiber that faithfully replicates weasel hair with RESABLE hair, we have achieved superior quality and maintained the price, surpassing the PARA RESABLE.
